

40-Inch Automotive Creeper with Tool Trays

This 40-inch plastic creeper is a lightweight tool for easy access under vehicles. It features six swivel casters for smooth maneuverability and side trays for convenient tool storage.

Product Overview

Professional Automotive Creeper

This 40-inch automotive creeper is engineered for durability and comfort in professional workshop environments. Constructed from high-impact HDPE material, it provides a lightweight yet robust platform capable of supporting up to 150kg. The low-profile design, combined with smooth-rolling 3-inch casters, ensures effortless maneuverability and easy access under vehicles.
