

400kVA Diesel Generator Set

This 400kVA diesel generator set provides a robust and efficient power solution. It is designed for industrial and commercial applications, ensuring a stable power supply for critical operations.

Product Overview

Industrial Power Solution

This 400kVA diesel generator set is engineered for reliable industrial and commercial power supply. Built on a heavy-duty frame with integrated cooling and filtration systems, it provides a stable and dependable energy solution for critical operations. The unit features an intuitive control panel for precise monitoring and management of power performance.

Key Performance Metrics

Featured Performance Metrics

400 kVA
Standby Power

320 kW
Prime Power

Technical Specifications

Engine Details	BF8M1015C-LA G1A
Number of Cylinders	8
Unit Dimensions	3200 x 1650 x 2100 mm
Net Weight	3400 kg

Product Range

Model Range Data

Model	Standby (kVA)	Prime (kW)	Weight (kg)
D30GF	33	24	750
D100GF	110	80	1250
D400GF	440	320	3400
D600GF	660	480	3700
