

400mm Abrasive Cut-Off Saw for Metal

This 400mm cut-off saw is designed for efficient and precise cutting of various metal materials. The machine features a powerful motor and a durable abrasive cutting wheel for clean and accurate cuts.

Product Overview

Industrial Metal Cutting Performance

The 400mm Abrasive Cut-Off Saw is a robust, industrial-grade machine engineered for the efficient and precise cutting of various metal materials. Built with a high-quality cast iron body and base, this saw offers exceptional durability and stability for demanding construction and workshop applications. It features an ergonomic handle with a specialized safety switch, a protective guard against sparks, and integrated wheels for convenient mobility on the job site.

Technical Specifications

Blade Diameter	400 mm
Model Identifier	J3GC-400

Construction & Design

Body Material	High-quality cast iron
Mobility	Yes

Safety & Operation

Operational Highlights

- Adjustable vise for secure workpiece holding
- Ergonomic handle for comfortable control
- Integrated wheels for easy transport

Safety Features	Safety Guard, Specialized Safety Switch, Fiber Strengthened Grinding Wheel
