

400mm Metal Cut-Off Saw

This 400mm metal cut-off saw is engineered for efficient and precise cutting. It features a powerful motor, durable cutting wheel, and adjustable fence for accurate angle cuts.

Product Overview

Industrial Grade Metal Cut-Off Saw

This 400mm metal cut-off saw is engineered for durability and reliability in industrial and workshop environments. Constructed with a high-quality cast iron body and base, it provides a stable foundation for consistent cutting performance. The unit features convenient base-mounted wheels for easy mobility and a secure bolt-fastening system for reliable, stationary operation.

Construction & Design

Body Material	Cast Iron
Base Features	Cast Iron Base, Integrated Wheels, Bolt-Fastening Ready

Performance & Safety

Safety Mechanisms

- Special switch handle design
- Fiber-strengthened grinding flat
- Secure clamping mechanism

Model Identifier

J3GA-400

Blade Size	400 mm
