

400mm Metal Cut-Off Saw

This 400mm metal cut-off saw is designed for efficient metal cutting. It features a powerful motor, a durable cutting wheel, and a sturdy frame with integrated wheels for portability.

Product Overview

Industrial Metal Cutting Performance

This 400mm metal cut-off saw is engineered for demanding industrial and workshop environments. Built with a high-quality cast iron body and base, it ensures long-lasting durability and stability during operation. The design incorporates mobility features and safety-focused controls, making it a reliable solution for precise metal cutting tasks.

Technical Specifications

Blade Diameter	400 mm
Model Identifier	J3GE-400

Construction & Design

Primary Material	Cast Iron
Mobility	Yes

Safety & Operation

Operational Highlights

- Special switch handle for controlled operation
- Integrated wheels for easy transport
- Secure clamping mechanism

Safety Certifications & Features	Fiber Strengthened Wheel, Safety Switch, Wheel Guard
