

400mm Metal Cut-Off Saw

This 400mm metal cut-off saw is designed for precise and efficient cutting operations. It features a powerful motor, a durable cutting wheel, and a sturdy base for stability.

Overview

Industrial Grade Metal Cut-Off Saw

This 400mm metal cut-off saw is engineered for durability and precision in industrial and workshop environments. Constructed with a heavy-duty cast iron body and base, it provides the stability required for consistent, high-quality cutting operations. Designed with operator safety and ease of use in mind, it features an integrated protective guard, a reliable switch mechanism, and built-in wheels for convenient mobility.

Construction & Design

Material Composition	Cast Iron Body, Cast Iron Base
Mobility	Yes

Technical Specifications

Blade Diameter	400 mm
Model Identifier	J3GD-400

Safety & Operation

Safety Features

- Protective safety guard
- Fiber-strengthened grinding wheel
- Specialized switch handle
