Product Overview

High-Performance 40V Power Tool Battery

This high-performance 40V battery is engineered to deliver reliable power for demanding tool applications. Featuring a robust housing and an integrated charge level indicator, it ensures both durability and ease of use for professional environments. The ribbed exterior design optimizes heat dissipation, maintaining consistent performance during extended operation.

Technical Specifications

Capacity Options

- 2
- 4

Battery Performance

40 V

Voltage

4 Ah

Max Capacity

Voltage

40 V

Key Features

Integrated Charge Indicator, Heat Dissipation Design, Robust Housing
