

41WA60S8BF80 Abrasive Cutting Disc - 72 m/s

Abrasive cutting disc designed for industrial applications. It is optimized for high-speed cutting at 72 meters per second.

Product Overview

High-Performance Abrasive Cutting Disc

This industrial-grade cutting disc is engineered for high-speed applications, reaching up to 72 m/s for efficient material removal. Designed for use with angle grinders and cut-off saws, it features a specialized grit and bonding agent (41WA60S8BF) optimized for precision in metalworking and construction. The disc ensures clean, precise cuts while maintaining durability under demanding industrial conditions.

Technical Performance

Performance Metrics

72 m/s

Standard Operating Speed

80 m/s

Maximum Speed (Vmax)

3000 RPM

Maximum Rotation

Dimensions

Metric Dimensions	125 x 1.0 x 22.23 mm
Imperial Dimensions	5" x 3/64" x 7/8"

Material & Construction

Specification Code

41WA60S8BF

Compliance & Standards

Safety & Quality Standards	EN 12413, MPA Z-12115
----------------------------	-----------------------

Application

Compatible Equipment

- Angle Grinders
- Cut-off Saws

Target Industries

- Metalworking
- Construction
