Overview

Heavy-Duty Material Handling Solution

This robust 4.5-5 ton diesel forklift is engineered for demanding industrial and construction environments. Featuring a powerful engine and a durable mast, it provides the reliability and torque necessary for heavy-duty lifting tasks. Its ergonomic operator cabin and intuitive control system are designed to maximize productivity and ensure operator safety during extended shifts.

Performance

Maximum Lifting Capacity

5 Tons
Max Load

Engine Type

Diesel

Design & Features

Ideal For

- Construction Sites
- Warehouses
- Industrial Material Handling

Tire Configuration

Pneumatic

Safety Equipment

Overhead Guard, Protective Cabin, Ergonomic Controls

Technical Specifications

Key Specifications Summary

Feature	Detail
Capacity Range	4.5 - 5 Tons
Power Source	Diesel Engine
Tires	Pneumatic
Primary Use	Heavy-duty lifting
