Product Overview

High-Performance Abrasive Flap Disc

This 4.5-inch abrasive flap disc is engineered for efficient grinding and finishing on stainless steel, carbon steel, and various metal surfaces. Designed with durability and sharpness in mind, it features overlapping abrasive flaps that provide consistent material removal and a smooth surface finish. Compliant with EN12413 safety standards, this disc is an ideal choice for professional weld blending, deburring, and general surface preparation tasks.

Technical Specifications

Performance Metrics

13300 RPM
Max Speed

80 m/s
Max Velocity

Safety Compliance

EN12413

Dimensions

4.5 inch (115mm) Diameter x 7/8 inch (22.23mm) Arbor

Material & Compatibility

Suitable Materials

- Stainless Steel
- Carbon Steel
- Metal Welding Spots

Primary Uses

- Grinding
- Weld Blending
- Deburring
- Surface Preparation

Material

White Aluminum

Available Grits

40#, 60#, 80#, 120#, 180#, 320#, 400#
