Product Overview

High-Performance Stainless Steel Disc

This 4.5-inch abrasive disc is engineered specifically for stainless steel and inox applications. It features a resin-bonded, reinforced construction that delivers a versatile balance between cutting and light grinding performance. Designed for durability and safety, this tool is ideal for tasks including burr removal, bevelling, and dressing.

Technical Specifications

Diameter	115 mm
Thickness	1.9 mm
Bore Size	22.2 mm

Performance Metrics

Maximum Speed

13300 RPM
Max RPM

80 m/s
Max Peripheral Speed

Compatibility & Usage

Primary Applications

- Cutting
- Light Grinding
- Burr Removing
- Bevelling
- Dressing

Compatible Materials

Stainless Steel, Inox

Safety & Standards

Safety Compliance

EN12413 • MPA

Supported Grinding Angles

- 30
- 90
