

4.5 x 1/8 Inch Flexible 46-Grit Grinding Wheel

This flexible grinding wheel has a 4.5-inch diameter, 1/8-inch thickness, and 7/8-inch arbor hole, with a 46-grit abrasive. It is suitable for contour grinding, surface finishing, and general metalworking tasks.

Product Overview

High-Performance T27 Grinding Wheel

This T27 DC angle grinding wheel is engineered for superior cost performance and safety during demanding metalworking tasks. Featuring a 46-grit abrasive surface, it provides excellent sharpness for grinding grey cast iron, cleaning switchboards, and chamfering edges. It is versatile enough to handle metal, non-ferrous alloys, concrete, and natural materials with ease.

Technical Specifications

Abrasive Grade	1 A / WA
Grit Size	46
Compatible Materials	Metal, Non-ferrous Metals, Non-ferrous Alloys, Concrete, Natural Stone, Grey Cast Iron
