

451230 3.7V 135mAh Rechargeable LiPo Battery

This 451230 LiPo battery has a capacity of 135mAh and a voltage of 3.7V. It is designed for use in GPS units, Bluetooth headsets, wireless products, electronic toys, and LED lights.

Product Overview

Compact Power Solution

The 451230 LiPo battery is a high-performance, rechargeable power source designed for space-constrained applications. With its ultra-compact 4.5mm x 12mm x 30mm dimensions and lightweight 3g profile, it is ideal for portable electronics. This battery provides a reliable 3.7V output, ensuring consistent performance for wireless and wearable devices.

Technical Specifications

Physical Dimensions

- Thickness: 4.5mm
- Width: 12mm
- Length: 30mm

Nominal Voltage	3.7 V
Rated Capacity	135 mAh
Weight	3 g

Applications

Primary Applications	GPS Devices, Bluetooth Headsets, Wireless Products, Electronic Toys, LED Lighting, Remote Controls
----------------------	--

Compliance

Certifications

CE • UL • RoHS
