

45A Flexible Cord Outlet

This 45A flex outlet is an electrical component designed for connecting flexible cords or cables. It is typically surface mounted and features a robust enclosure with screw terminals for secure wiring.

Product Overview

45A Flexible Cord Outlet

This 45A flexible cord outlet is an essential electrical component designed to provide a secure and reliable connection point for high-power flexible cords and cables. Engineered for durability, it features high-quality silver contact points and copper internal components housed within a robust Bakelite panel. Its 86x86mm standard size and clean white finish make it a versatile choice for professional installations in homes, hotels, and restaurants.
