Product Overview

4.6-inch Stainless Steel V-Band Clamp

This 4.6-inch stainless steel V-band clamp is designed to provide robust and reliable fastening for high-performance exhaust and turbocharger assemblies. Constructed from high-grade 304 stainless steel, it offers exceptional corrosion resistance and durability in demanding thermal environments. The precision design ensures a uniform clamping force to create a secure, leak-proof seal for your critical automotive connections.

Part Number	G4210007
