

48-inch Bolt Cutters

These bolt cutters are designed for cutting bolts, rods and other metal materials. The 48-inch tool features hardened steel jaws, long handles and comfortable grips.

Product Overview

Professional Grade Bolt Cutters

These heavy-duty bolt cutters are engineered for cutting bolts, rods, and various metal materials with precision. Featuring hardened steel jaws for long-lasting durability and efficient cutting performance, they are built to withstand demanding environments. The extended handle design provides significant leverage, while the ergonomic grips ensure ease of use during repetitive tasks, making them an essential tool for construction and industrial applications.

Technical Specifications

Length	48 inch
Model Identifier	TH
Key Features	Hardened Steel Jaws, High Leverage Handles, Ergonomic Grips, Heavy-Duty Construction

Applications

Suitable Applications

- Construction
- Industrial Maintenance
- Metal Fabrication
- DIY Projects
