

# 4.8V 400mAh Ni-MH Rechargeable Battery Pack

This Ni-MH rechargeable battery pack delivers 4.8V. With a capacity of 400mAh, it provides reliable power for various electronic devices.

## Overview

### High-Performance Ni-MH Power Solution

This rechargeable battery pack is engineered to provide reliable and consistent power for demanding portable electronics and remote-controlled devices. Utilizing Nickel-Metal Hydride chemistry, it offers a superior energy density and an environmentally friendly alternative to older battery technologies. The compact 4.8V configuration makes it an ideal choice for space-constrained applications requiring sustained performance.

## Technical Specifications

Nominal Voltage	4.8 V
Capacity	400 mAh
Battery Chemistry	Nickel-Metal Hydride (Ni-MH)
Cell Configuration	4 x 2/3AAA

## Features

### Key Features

- High energy density
- Low self-discharge rate
- Overcharge protection
- Overheat protection
- Environmentally friendly chemistry

## Applications

Common Applications	Remote control toys, Portable electronics, Compact electronic devices
---------------------	---

## Safety

### Safety Instructions

Do not dispose of in fire
