

# 49cc Mini All-Terrain Vehicle

This mini ATV has a four-wheel design for stability and knobby tires for off-road use. It is powered by a small gasoline engine and includes a front bumper.

## Overview

### Compact Off-Road Performance

This 49cc mini all-terrain vehicle is engineered for recreational off-road use, featuring a robust single-cylinder, air-cooled 2-stroke engine. Designed with a compact frame and stable four-wheel geometry, it provides a safe and engaging experience for younger riders. With knobby tires for traction and a reliable manual disc brake system, this ATV combines sporty performance with essential safety features.
