

49cc Two-Stroke Engine ATV for Young Riders

This compact ATV is designed for young riders and features a 49cc two-stroke engine. Its sturdy steel frame ensures durability, while front and rear drum brakes provide reliable stopping power.

Overview

Designed for Young Riders

This 49cc two-stroke ATV is engineered specifically as an entry-level vehicle for young riders. It balances performance with essential safety features, including a speed limiter and engine kill switch, ensuring a controlled and secure off-road experience. Its compact, lightweight design makes it easy to handle while maintaining the durability required for recreational use.
