

4K High-Definition Multimedia Interface Cable

This High-Definition Multimedia Interface (HDMI) cable is designed for transmitting high-bandwidth, uncompressed digital audio and video signals. It supports resolutions up to 4K and beyond and is compatible with modern displays and devices.

Product Overview

High-Performance Connectivity

This High-Definition Multimedia Interface (HDMI) cable is engineered for reliable transmission of high-bandwidth, uncompressed digital audio and video signals. Supporting resolutions up to 4K and beyond, it ensures seamless compatibility with modern displays and multimedia devices. With a shielded construction and corrosion-resistant connectors, it provides a stable and clear signal transfer for professional and home entertainment setups.

Technical Specifications

Maximum Resolution	4K and beyond
Signal Type	Uncompressed digital audio and video

Construction & Design

Connector Features	Gold-plated, Corrosion resistant
Shielding	Yes

Applications

Compatible Devices

- Blu-ray players
- Gaming consoles
- Streaming devices
- Computers

Target Displays

- TVs
- Monitors
- Projectors
