

4K Ultra HD Smart Laser TV with 100-inch Screen

This 4K smart Laser TV includes an ultra-short throw laser projector and a 100-inch ambient light rejection screen. The system delivers a premium cinematic experience.

Overview

Immersive 4K Home Cinema Experience

This 4K Ultra HD Smart Laser TV features an ultra-short throw design, allowing for a massive 100-inch display while requiring only 19cm of distance from the wall. Equipped with X-Fusion laser light source technology and HDR compatibility, it delivers a wider color range and superior picture quality compared to standard UHD displays. The system includes integrated Dolby Atmos audio and is powered by a smart operating system for a seamless entertainment experience.
