

4W Intelligent Sensor LED Bulb

This intelligent sensor LED bulb is designed for energy efficiency and convenience. Featuring a built-in sensor, it automatically turns on when motion is detected and off after a period of inactivity.

Product Overview

Intelligent Sensor LED Technology

This intelligent sensor LED bulb is engineered for maximum energy efficiency and user convenience in modern indoor environments. Featuring a built-in motion sensor, the bulb automatically activates upon movement detection and powers down after a period of inactivity, ensuring optimal energy usage. With a low power consumption of 4W, it delivers reliable and bright illumination while maintaining a long operational lifespan.

Technical Specifications

Power Consumption

4 W
Power

Lighting Technology

LED

Features

Suitable Applications

- Indoor residential lighting
- Hallways and corridors
- Storage areas
- Utility rooms

Sensor Features

Motion Detection, Auto On/Off, Energy Saving
