Product Overview

Industrial Mechanical Counting Solution

This 5-digit mechanical stroke rotary counter is designed for reliable, accumulative recording in demanding industrial environments. Featuring a robust mechanical design, it is ideal for monitoring the working times of machinery, vacuum circuit breakers, and other apparatus. The device provides a clear, direct count display from 00000 to 99999 and includes a reset mechanism for easy zeroing.

Technical Specifications

Digit Capacity	5
Counting Range	00000 to 99999
Actuation Mechanism	Stroke, Rotary, Lever Arm
Mounting Type	Panel Mount

Application & Use

Target Industries

- Vacuum Circuit Breakers (VCB)
- Spinning Machinery
- General Machinery
- Mining Equipment
- Packaging Processes

Key Features

Long Life • Reliable Result • Environmentally Resistant • Direct Display
