Overview

Applications

应用于机械、汽车、金属制造、家庭装修、维修等行业

Versatile application across metal processing, manufacturing, and automotive industries.

Professional Metal Grinding Solution

This 5-inch depressed-center grinding wheel is engineered for high-performance material removal and surface preparation on various metal types. Designed for durability and efficiency, it features a reinforced structure that ensures stable operation during demanding metalworking tasks. This cost-effective tool is an ideal choice for professionals seeking reliable performance in industrial grinding applications.

Certifications

ISO 9001, MPA Z-04889

Dimensions & Performance

Dimensions

125 mm
Diameter

6 mm
Thickness

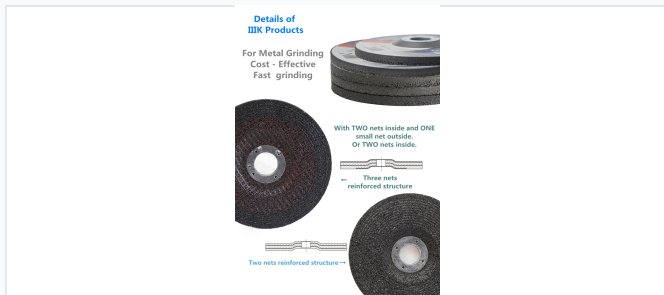

22.2 mm
Bore Diameter

Operating Limits

72 m/s
Max Speed

11000 rpm
Max RPM

Technical Details

Reinforced structure design ensuring durability and efficient material removal.

Optimized for grinding stainless steel, carbon steel, iron, and alloy steel.

Suitable Materials

- Stainless steel
- Carbon steel
- Iron
- Alloy steel

Construction

Reinforced structure with two internal nets or two internal nets and one external net

Packaging

100 pcs/box

Product Code

XK06-011-00293
