

5-Inch Pneumatic Angle Grinder

This pneumatic angle grinder is designed for industrial use. It features a robust motor and ergonomic handle for efficient material removal, grinding, and cutting.

Product Overview

Industrial Pneumatic Performance

This 5-inch pneumatic angle grinder is engineered for demanding industrial environments, offering high-performance material removal, grinding, and cutting capabilities. Designed with a robust pneumatic motor, it ensures consistent power for metalworking, construction, and automotive applications. The tool features an ergonomic handle for improved control and comfort during extended operation.

Technical Specifications

Item Number	LK-29
Plate Size	125 mm
Free Speed	11000 RPM
Air Inlet	1/4" NPT

Physical Dimensions

Length	261 mm
Net Weight	2 kg
