Product Overview

Silent Diesel Generator Performance

This portable silent diesel generator is engineered for reliable, consistent power delivery in professional settings. Featuring a robust 4-stroke air-cooled engine, it provides a rated power of 4600W and a maximum output of 5000W. Designed with mobility and quiet operation in mind, it is an ideal solution for demanding environments requiring a stable power supply.

Technical Specifications

Key Performance Metrics

4600 W Rated Power	5000 W Max Power	406 cc Engine Displacement	9 HP Engine Output
------------------------------	----------------------------	--------------------------------------	------------------------------

Electrical Configuration

- 50Hz Frequency
- 230V Standard Voltage
- 1-Phase or 3-Phase selectable output
- 12V/8.3A DC auxiliary output
