

5-Piece Pneumatic Tool Kit with Spray Gun and Inflator

This 5-piece air tool kit includes a spray gun, blowing gun, washing gun, inflating gun, and spiral hose. It is mainly used for car maintenance and can supply spray painting, blowing off dust, and pumping air.

Product Overview

Professional Multi-Purpose Pneumatic Kit

This comprehensive 5-piece pneumatic tool kit is designed for versatility and efficiency in automotive maintenance and workshop environments. The set includes essential tools for spray painting, dust removal, washing, and tire inflation, providing a complete solution for various pneumatic applications. Built for reliability, this kit supports multiple international coupling standards to ensure seamless integration with existing workshop air systems.

Kit Components

Included Tools

- Gravity spray gun
- Blowing air gun
- Washing gun
- Inflating gun
- Spiral hose

Compatibility & Standards

Supported Coupling Types

Italian fittings, German quick couplings, American quick couplings, Japanese quick couplings, Universal quick coupling
