

50-100kW Permanent Magnet Diesel Generator Power Plant

This diesel generator power plant features a permanent magnet generator for enhanced efficiency. It is available in 50kW, 75kW, and 100kW power output configurations.

ADDITIONAL IMAGES

Product Overview

Professional diesel generator power plant designed for stable and consistent performance.

High-Efficiency Power Generation

These professional-grade diesel generator power plants are designed for reliable and continuous electricity supply across industrial, commercial, and residential sectors. Each unit features a robust diesel engine coupled with an advanced permanent magnet generator to ensure high efficiency, stable voltage, and consistent frequency regulation. Built for durability and ease of installation, these units are available in 50kW, 75kW, and 100kW configurations and are enclosed in soundproof canopies for minimized noise operation.

Technical Specifications

Generators utilize high-quality copper windings for efficient and reliable power output.

Key Components

- High-efficiency diesel engine
- Permanent magnet alternator
- Soundproof canopy
- Integrated control panel
- Sturdy base frame
- Copper windings

Power Outputs

50kW, 75kW, 100kW

Generator Technology

Permanent Magnet

Compliance and Quality

Certified Standards

ISO 9001:2015 • ISO 14001:2015 • Machinery Directive 2006/42/EC

Logistics

Units are securely packaged in sturdy wooden crates with moisture protection for safe international transit.

Accepted Payment Methods

- T/T (30% deposit/70% balance)
- LC at sight
- PayPal
- Western Union
