

50-Inch LED Marine Light Bar

This 50-inch LED marine light bar is designed for superior illumination in marine environments. It features a robust, corrosion-resistant housing and high-output LEDs for exceptional brightness and long-lasting durability.

Product Overview

High-Performance Marine Illumination

This 50-inch LED marine light bar is engineered for superior visibility and safety in demanding maritime environments. Featuring a high-output 250W design with 50 individual 5W CREE LEDs, it delivers a powerful 21400 lumens for exceptional brightness. Built with a durable 6063 aluminum extrusion and a clear PC lens, this light bar is designed to withstand harsh conditions, offering reliable performance for yachts, boats, and commercial vessels.

Technical Specifications

Light Performance

250 W

Power

21400 lm

Raw Lumens

Voltage Range

9-32V

LED Configuration

50 x 5W CREE LEDs

Durability & Construction

IP Rating

IP 68

Housing Material

6063 Aluminum Extrusion

Lens Material

Clear PC

Operating Temperature

-40°C to 150°C

Dimensions & Mounting

Dimensions

50 inches

Length

Mounting

Cast Alloy Leg Mount
