Product Overview

Professional Electric Hoist

This 500 kg electric hoist is engineered for demanding industrial and construction lifting tasks, offering both reliability and safety. It features a robust up and down limit device, an emergency stop switch, and thermal protection to ensure secure operation. With its versatile load capacity and certified safety standards, it is an essential tool for workshops and job sites.

Performance & Capacity

Max Load (Double Cable)	500 kg
Max Load (Single Cable)	250 kg
Power	1020 W

Technical Specifications

Voltage	220V-240V 50Hz
Protection Class	IP54
Insulation Class	B

Safety & Compliance

Safety Features

- Emergency stop switch
- Reinforced breaking switch
- Up and down limit device
- Thermal protection device

Certifications	CE, GS, EMC, RoHS
