

5000W Gasoline Generator with 5500W Peak Output

This gasoline generator has a rated output of 5000W at 220V and 50Hz. It provides a peak output of 5500W for 10 seconds to start larger equipment.

Overview

Reliable Power Generation

The SP6500 gasoline generator delivers a robust 5000W rated output and 5500W peak performance, making it an ideal solution for both residential and commercial power needs. Designed for durability and ease of use, it features a 389cc engine, a large 25L fuel tank for extended operation, and a portable wheel kit. This unit provides consistent power for tools and appliances, ensuring operational continuity during outages or in remote work environments.

Engine & Performance

Performance Metrics

5500 W

Peak Output

5000 W

Rated Output

72 dB(A)

Noise Level

Engine Type	GX390
Displacement	389 cc

Power & Electrical

AC Output	220V 50Hz
DC Output	100W 12V 8.3A

Fuel & Operation

Fuel Tank Capacity	25 L
Run Time (Rated Load)	7 hrs
Run Time (1/2 Load)	11 hrs

Physical Characteristics

Weight

Type	Weight
Dry Weight	78
Gross Weight	80

Dimensions (L x W x H)	710 x 535 x 570 mm
