Product Overview

Efficient Power Solution for Li-ion Systems

The S120 Li-ion battery charger is a high-performance solution designed for electric mobility and professional equipment. Built with a durable aluminium alloy shell, it provides stable power management for 13S battery configurations. Its universal input compatibility and safety-certified design make it a reliable choice for e-bikes, scooters, and industrial cleaning vehicles.

Technical Specifications

Performance Highlights

54.6 V

Output Voltage

2 A

Output Current

109.2 W

Output Power

Input Voltage Range	110-132VAC / 200-264VAC
Compatible Battery Setup	13S Li-ion

Mechanical Details

Physical Dimensions	137 x 90 x 51 mm
Net Weight	0.8 kg
Housing Material	Aluminium Alloy

Compliance & Support

Certifications	CE
Warranty Period	12 Months

Applications

Supported Applications

- Electric Bikes
- Electric Motorcycles
- Electric Scooters
- Cleaning Equipment
- Golf Carts
