

# 55 Degree Taper Pipe Tap

These 55 degree taper pipe taps (Rc) are designed for creating tapered threads in pipes and fittings. They adhere to the ISO2284 standard and come in various sizes.

## Product Overview

### Precision Threading Solutions

These 55-degree taper pipe taps (Rc) are engineered for creating high-precision tapered threads in pipes and fittings. Adhering to the ISO2284 standard, they ensure reliable performance and consistent threading results across industrial applications. With a comprehensive range of sizes available, these taps are an essential tool for professional pipe threading and plumbing maintenance.

## Technical Standards

Standards

ISO2284, 55° Taper Pipe Thread

## Technical Specifications

### Size and Dimension Reference

Size	Overall Length (mm)	Thread Length (mm)
Rc1/16-28	52	14
Rc1/8-28	59	15
Rc1/4-19	67	19
Rc3/8-19	75	21
Rc1/2-14	87	26
Rc3/4-14	96	28
Rc1-11	109	33
Rc1-1/4-11	119	36
Rc1-1/2-11	125	37
Rc2-11	140	41
Rc2-1/2-11	153	45
Rc3-11	164	48
Rc3-1/2-11	173	50
Rc4-11	185	53
