

## 5.5 HP Air-Cooled Gasoline Engine

This 5.5 HP gasoline engine is a single-cylinder, 4-stroke, air-cooled model with electronic ignition. It features an oil alert system that protects the engine by shutting it down when the oil level is low.

### ADDITIONAL IMAGES

### Overview

#### High-Performance 5.5 HP Gasoline Engine

This 5.5 HP air-cooled gasoline engine is designed for reliability and efficiency in various industrial and agricultural applications. Featuring a 4-stroke overhead valve (OHV) design and an integrated oil alert system, it provides consistent power while ensuring engine protection. Its compact build and electronic ignition make it an ideal choice for powering generators, water pumps, and other machinery requiring dependable performance.

### Performance Metrics

#### Maximum Power Output

**5.5 HP**  
Max Power

**3600 rpm**  
Rated Speed

#### Maximum Torque

11 N.m

### Engine Specifications

Engine Type	4-Stroke, Air-Cooled
Displacement	160 cc
Ignition System	Electronic Ignition
Starting System	Recoil Starter
Key Features	Oil Alert System, OHV Design, Air-Cooled

## Physical Dimensions

### Dimensions & Weight

Attribute	Value
Gross Weight	Kg
Fuel Tank Capacity	L
Oil Capacity	L
