

## 55 HP Farm Wheel Tractor

This tractor features a direct injection, water-cooled 4-stroke engine. The gearbox uses F12+R12.

### ADDITIONAL IMAGES

### Overview

The robust construction ensures reliable performance in demanding agricultural conditions.

### Versatile 55 HP Agricultural Tractor

This 55 HP farm wheel tractor is a robust and efficient machine designed to handle a variety of agricultural tasks, including plowing, tilling, and hauling. Equipped with a reliable 4-stroke, water-cooled engine and a versatile F12+R12 shuttle shift transmission, it offers the performance required for modern farming operations. The tractor features a comfortable operator environment and an 80L fuel tank, ensuring high productivity throughout long working days.

### Technical Specifications

Dimensions (L×W×H)	3980×1635×2400 mm
Dry Mass (with cab)	2540 kg

## Engine Details

Engine Configuration	Directly Injection Vertical Water Cooled 4-stroke
Number of Cylinders	4

## Transmission & Drivetrain

Gearbox Type	F12+R12 Shuttle Shift
Clutch Specification	10in, double-acting, semi-independent, dry clutch
PTO Speed	540/760 rpm

## Operational Features

Linkage System	I Rear Mount 3-point Linkage
F/R Tire Sizes	8.3-20 / 12.4-28 mm
