

550W AC Electric Motor 220V

This electric motor is designed for various industrial applications. It has a power rating of 550W, a nominal speed of 3000r/min, and is ideal for pumps and general machinery.

Product Overview

Industrial Performance Overview

This high-performance 550W AC electric motor is engineered for reliability in a wide range of industrial applications. Designed for a 220V power supply, it provides a consistent nominal speed of 3000r/min and a torque output of 1.75N.m. Its robust construction makes it an ideal solution for powering pumps and various types of general machinery.

Technical Specifications

Rated Power

550 W

Nominal Power

Voltage	220V
Frequency	50 Hz
Rated Current	3.5 A

Performance Metrics

Rotational Speed	3000 r/min
Torque	1.75 N.m

Product Details

Model ID	SF-11275/2
