Overview

Reliable Power Solution

This 5.5kW gasoline generator set is engineered for dependable performance in both residential and commercial environments. Featuring a 13HP forced air-cooled engine and a 25L fuel tank, it provides consistent power output for extended operation. Equipped with key start functionality and an oil alert system, this unit combines ease of use with essential safety features for various power needs.

Engine Specifications

Engine Details

- Model: TE390E
- Max Output: 13 HP
- Displacement: 389 cc
- Type: Forced air-cooled, 4 stroke, OHV
- Ignition: Non-contact transistorized ignition (T.C.I)
