Product Overview

Versatile 55L Dual Zone Cooling Solution

This 55L dual zone portable fridge freezer is designed for professional and recreational use, offering independent temperature control for simultaneous refrigeration and freezing. Engineered for durability and efficiency, it operates on both AC and DC power, making it an ideal companion for long-haul transport, camping, and outdoor activities. With a precise cooling range down to -20°C, it ensures your goods remain at optimal temperatures regardless of the environment.

Technical Performance
