

56-Inch Ceiling Fan with Five-Speed Regulator

This ceiling fan has a 56-inch diameter and operates at 220V/50Hz. It features a five-speed regulator and blades with a 7-degree angle.

Product Overview

High-Performance 56-Inch Ceiling Fan

This durable 56-inch ceiling fan is designed for efficient air circulation in commercial or residential spaces. Engineered with a robust iron construction, it features a powerful 80W motor capable of reaching 285 R.P.M. for optimal cooling. The unit includes a versatile five-speed regulator, allowing users to precisely control airflow to meet specific environmental needs.

Technical Specifications

Max Speed

285 R.P.M.
Maximum RPM

Electrical Requirements

- Voltage: 220V
- Frequency: 50Hz

Fan Diameter: 56 inch

Power Consumption: 80 W

Construction & Design

Blade Dimensions

Feature	Measurement
Blade Length	570mm
Blade Width	130mm
Blade Angle	7 degrees

Housing Dimensions

- Width: 210mm
- Height: 70mm

Material: Iron

Motor Size: 116x13.6mm

Operational Performance

Control Options

5-Speed Regulator

Temperature Rise

95 K
