

56-Inch Industrial Ceiling Fan

This 56-inch industrial ceiling fan is designed for large spaces. It features durable construction and a powerful motor to provide optimal airflow and cooling.

Overview

Industrial-Grade Ventilation Solution

The 56-inch industrial ceiling fan is a robust and efficient ventilation solution designed specifically for demanding industrial and commercial environments. Featuring durable iron and plastic construction, this fan is engineered for longevity and consistent performance. Its high-capacity design ensures optimal airflow and effective air circulation across large spaces, making it a reliable choice for professional cooling needs.

Technical Specifications

Model Number	CF1056ED1-3M(C)
Product Code	CF1056ED1-3M(C)
Fan Size	1400 mm
Materials	Iron, Plastic
Color	Brown

Logistics
