

5.8 kg Capacity Top-Load Washing Machine

This top-load washing machine has a 5.8kg capacity. It features a user-friendly control panel with a digital display, allowing for easy selection of various wash cycles and settings.

Overview

Efficient Automatic Washing Solution

This 5.8kg capacity top-load washing machine is designed for economy and reliability, featuring an intelligent computer control board for precise operation. It offers customizable wash, rinse, and dewatering cycles to suit various fabric types and soil levels. Built with a durable high-strength PP plastic body and a stainless steel inner barrel, it is engineered to withstand humid environments while providing consistent, energy-efficient performance.

Key Features

Smart Functionality

- Color VFD screen display
- Power-down memory fuzzy control
- 24-hour booking function
- Clean barrel cycle
- Intelligent 10-level water control

Safety & Build Quality

Ratguard protection, Safety door switch, Stainless steel inner barrel, High-strength PP housing, 80-mesh water inlet filter

Performance Metrics

Efficiency & Performance

0.808

Cleaning Rate

90.5 %

Dehydration Property

3223 cycles

Failure-free Operation

Technical Specifications

Power & Capacity

Parameter	Value
Rated Voltage	220V
Rated Frequency	50 Hz
Washing Capacity	5.8 kg
Washing Power	350 W
Dehydration Power	350 W

Dimensions & Weight

- Net Weight: 27.5 kg
- Gross Weight: 31 kg
- Outline Dimensions: 530 x 531 x 925 mm
- Packing Size: 570 x 600 x 985 mm

Noise & Energy

- Washing Noise: 57.6 dB
- Dehydration Noise: 61.0 dB
- Energy Efficiency: Level 2
- Power Consumption: 0.0169 kWh/cycle/kg
- Water Consumption: 23.7 L/cycle/kg
