

5.8 MHz EAS Anti-Theft Alarm System

This EAS anti-theft alarm system operates at 5.8 MHz. It is designed for retail environments, providing a long detection distance to prevent theft.

Overview

High-Performance Retail Security

This 58KHz EAS Anti-Theft Alarm System provides a robust security solution for modern retail environments, specifically optimized for garment stores and supermarkets. Featuring a sleek design constructed from aluminum alloy and imported acrylic, it offers long-distance detection to prevent inventory loss while maintaining an open storefront aesthetic. The system supports both Dual and Mono configurations, ensuring flexible installation to meet various entrance widths and security requirements.
