

58cc Gasoline Chainsaw

This 58cc chainsaw is a powerful tool for various cutting tasks. Its robust engine provides ample power for felling trees, limbing branches, and cutting firewood.

Product Overview

Professional Performance Overview

This 58cc gasoline chainsaw is engineered for reliability and efficient cutting performance in demanding outdoor environments. Designed with a focus on user comfort and operational safety, it features advanced anti-vibration technology to reduce fatigue during extended use. It is a versatile tool suitable for tasks ranging from pruning and bamboo cutting to felling and firewood preparation.

Technical Specifications

Compatible Guide Bar Lengths

- 15 inches
- 18 inches

Engine Displacement	58 cc
---------------------	-------

Features & Benefits

Primary Applications

Bamboo Cutting • Pruning • Felling • Firewood Preparation

Anti-Vibration System	Wire spring dampening, High-strength shock-absorbing rubber
Operational Efficiency	Yes
