

5kW Portable Gasoline Generator

This 5kW gasoline generator ensures a reliable power supply for various applications. It features a robust engine for efficient fuel consumption, stable output, multiple AC outlets, a DC output, overload protection, low oil shutdown, and a durable frame.

Product Overview

Reliable Portable Power

This 5kW gasoline generator is engineered to provide a dependable power supply across a variety of professional and emergency applications. Designed with a focus on efficiency and durability, it features a robust engine capable of maintaining stable output even under demanding conditions. Its portable frame and comprehensive safety systems, including overload protection and low oil shutdown, make it an ideal choice for construction sites, outdoor events, and backup power needs.
