

6 cu.ft. Pneumatic Wheelbarrow

This wheelbarrow has a powder-coated steel tray with a 0.8mm thickness. It is equipped with a pneumatic tire for stability and easy movement.

Product Overview

Industrial-Grade Material Handling

This 6 cubic foot industrial steel tub wheelbarrow is engineered for demanding trade, construction, and landscaping applications. Built with a 0.8mm UV-treated steel tray and a high-stability frame, it provides reliable performance under heavy loads. The inclusion of a 4-ply pneumatic tire ensures smooth transportation across uneven terrain, making it an essential tool for moving soil, gravel, and construction debris.
