Overview

Professional Grade Combination Pliers

These 6-inch combination pliers are engineered for versatile performance, offering reliable gripping, bending, and cutting capabilities. Constructed from high-strength 50CrV steel, the tool features an optimized hardness range of HRC 55-62 for durability and edge retention. Designed with user comfort in mind, the ergonomic three-colour TPR/PVC handle ensures a secure grip and reduces hand fatigue during extended professional use.

Technical Specifications

Length	160 mm
Material	50CrV Steel
