

# 6-Inch Static Plasma Ball Lamp

This 6-inch plasma ball lamp creates a mesmerizing display of light. The glass sphere is filled with a gas mixture that reacts to high-voltage electricity, producing colorful plasma filaments within the globe.

## Product Overview

### Captivating Plasma Lighting

This 6-inch plasma ball lamp creates a mesmerizing display of colorful, dancing light filaments that react to your touch. Designed with a stylish black base, it serves as an excellent decorative piece for workstations or living spaces. The lamp offers versatile operation modes, including continuous illumination or sound-activated flashing, making it a dynamic addition to any environment.
