

6-Ton Steel Jack Stands

These 6-ton steel jack stands are designed to support vehicles during maintenance and repair. They are constructed with high-grade steel, ensuring strength and long-term durability.

Overview

Reliable Support for Heavy Loads

These 6-ton steel jack stands are engineered for professional repair work and secure vehicle storage. Featuring a robust welded steel base and a self-locking ratchet handle, they provide the stability and safety required for SUVs, light trucks, and small tractors. Designed for durability, these stands are an essential tool for any automotive maintenance environment.
