

6 x 1/2 x 1-1/4 Inch Grinding Wheel

This grinding wheel measures 6 x 1/2 x 1-1/4 inches. It is constructed from durable abrasive materials for efficient material removal.

Product Overview

High-Performance Green Silicon Carbide Grinding Wheel

This precision-engineered grinding wheel is crafted from green silicon carbide, a material specifically chosen for its exceptional hardness and ability to grind brittle materials. It is an ideal solution for processing glass and hard alloys, offering consistent and reliable material removal. Designed for durability and efficiency, this wheel is suitable for sharpening, shaping, and finishing tasks in both professional and DIY environments.

Technical Specifications

Diameter	6 inch
Thickness	0.5 inch
Arbor Hole Size	1.25 inch
Abrasive Material	Green Silicon Carbide
Specification Code	GC 60 L

Application & Compatibility

Compatible Equipment

- Electric Grinders
- Bench Grinders

Primary Uses

Sharpening • Shaping • Finishing

Suitable Materials

Glass, Hard Alloy, Metal
