Product Overview

High-Performance Grinding Solution

This 6-inch grinding wheel is engineered for precision material removal and consistent grinding action. Constructed from durable aluminum oxide, it is specifically designed for rough grinding applications on various metals, including carbon steel, general steel, malleable cast iron, and hard bronze. Its robust design makes it an ideal choice for shaping, sharpening, and finishing tasks in professional workshop environments.

Dimensions

Outer Diameter	6 inch
Thickness	0.1875 inch
Arbor Hole Diameter	1.25 inch

Technical Details

Primary Applications

- Rough Grinding
- Shaping
- Sharpening
- Finishing

Abrasive Material	Aluminum Oxide
Compatible Materials	Carbon Steel, General Steel, Malleable Cast Iron, Hard Bronze
